DATA CENTER SIMULATION PERFORMANCE REPORT

Workload Profile: NORMAL_DAY | Timestamp: 2026-10-20 14:46:02

OVERALL SLA VERDICT: FAIL (1/4 Checks Satisfied)

1. Experiment Summary & Identification

Parameter	Value
Profile / Workload	normal_day
Execution Duration	418.0 s
Start Time (T1)	1787489781.0
End Time (T2)	1787490199.0
Total Requests Executed	8275
Primary Bottleneck	None
Statistical Confidence	LOW
Failure Classification	HTTP_REQUEST_FAILURES, SLA_NON_COMPLIANCE

2. SLA Scorecard & Compliance Targets

SLA Metric	Measured Value	Target Limit	Result
P95 Response Time	110.0 ms	500.0 ms	PASS
Error Rate	1.003 %	1.0 %	FAIL
Peak CPU Utilization	N/A	80.0 %	UNKNOWN
Peak Memory Utilization	N/A	90.0 %	UNKNOWN

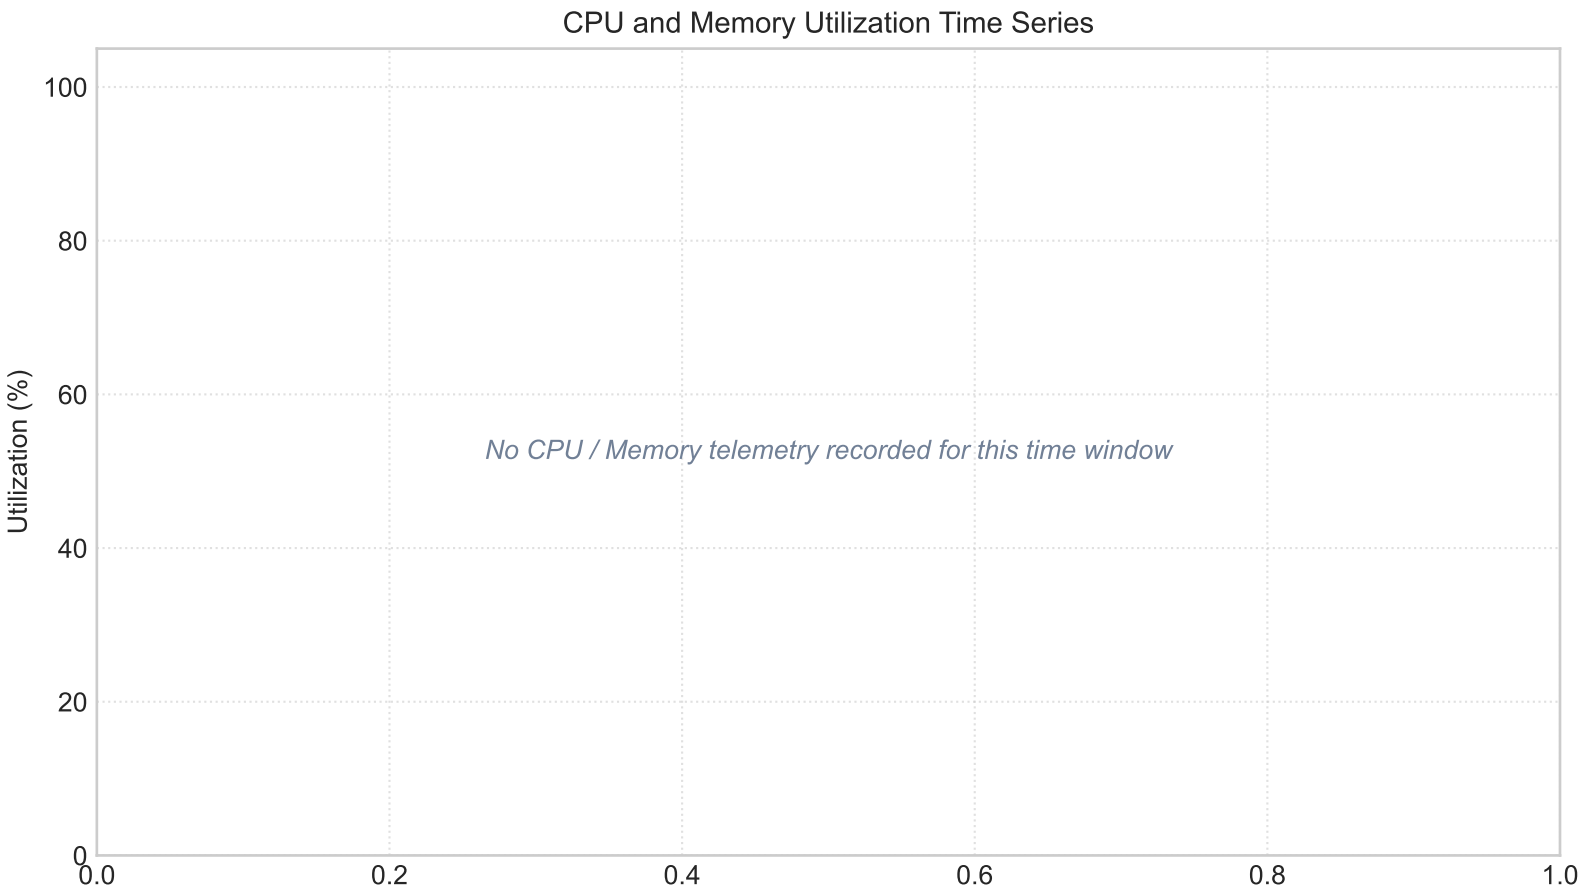

3. Executive Conclusion & Synthesis

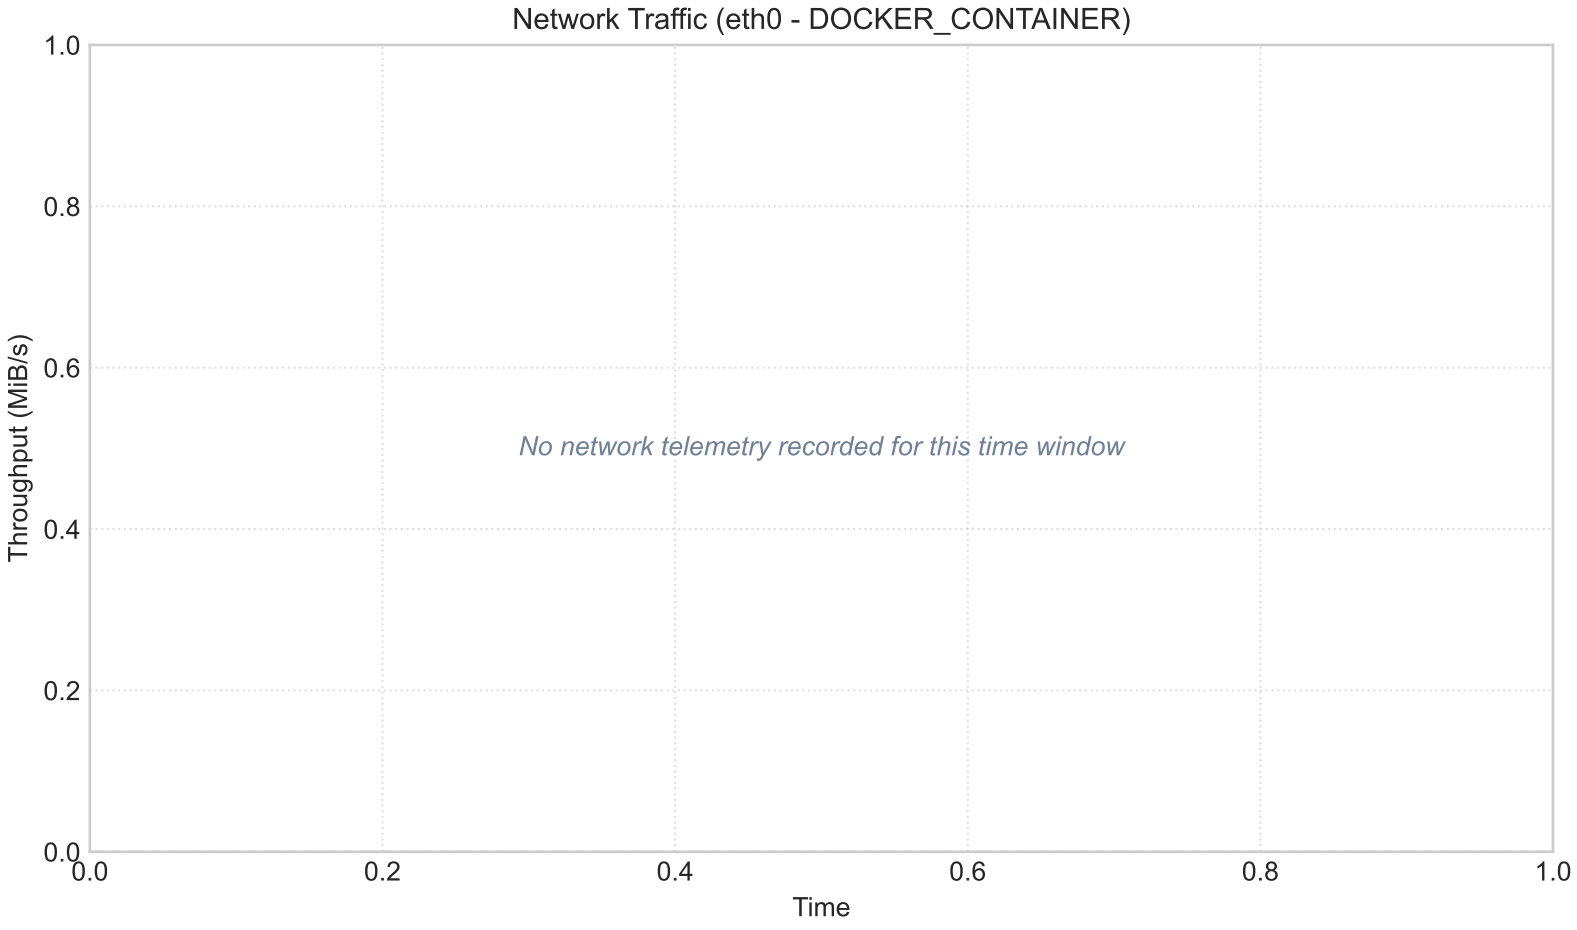

The experiment executed 8275 requests with overall SLA status 'FAIL' (1/4 checks satisfied). No container crashes or service interruptions were detected by the watchdog. SLA non-compliance recorded: Error Rate: measured 1.003 % exceeds limit 1.0 %.

4. Diagnostic Observations & Evidence

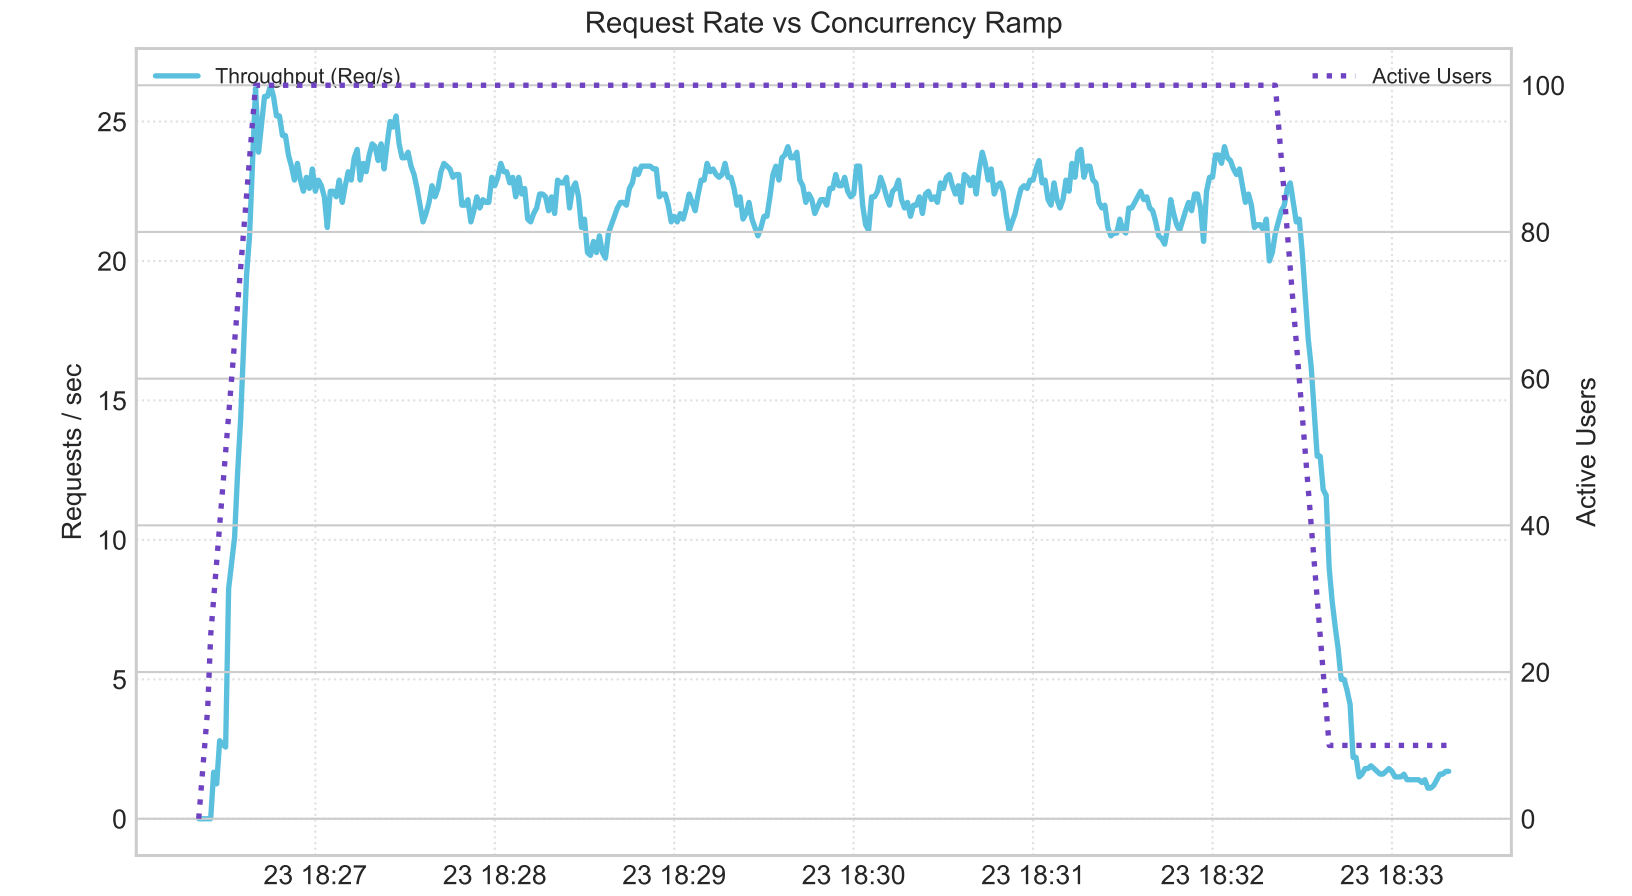

- Prometheus metrics unavailable to evaluate hardware resource boundaries.
- Locust recorded 83 failed requests (1.003% error rate).
- Failure on POST /login: HTTPError('429 Client Error: Too Many Requests for url: /login') (80 occurrences)
- Failure on GET /health: RemoteDisconnected('Remote end closed connection without response') (2 occurrences)
- Failure on GET /me: RemoteDisconnected('Remote end closed connection without response') (1 occurrences)

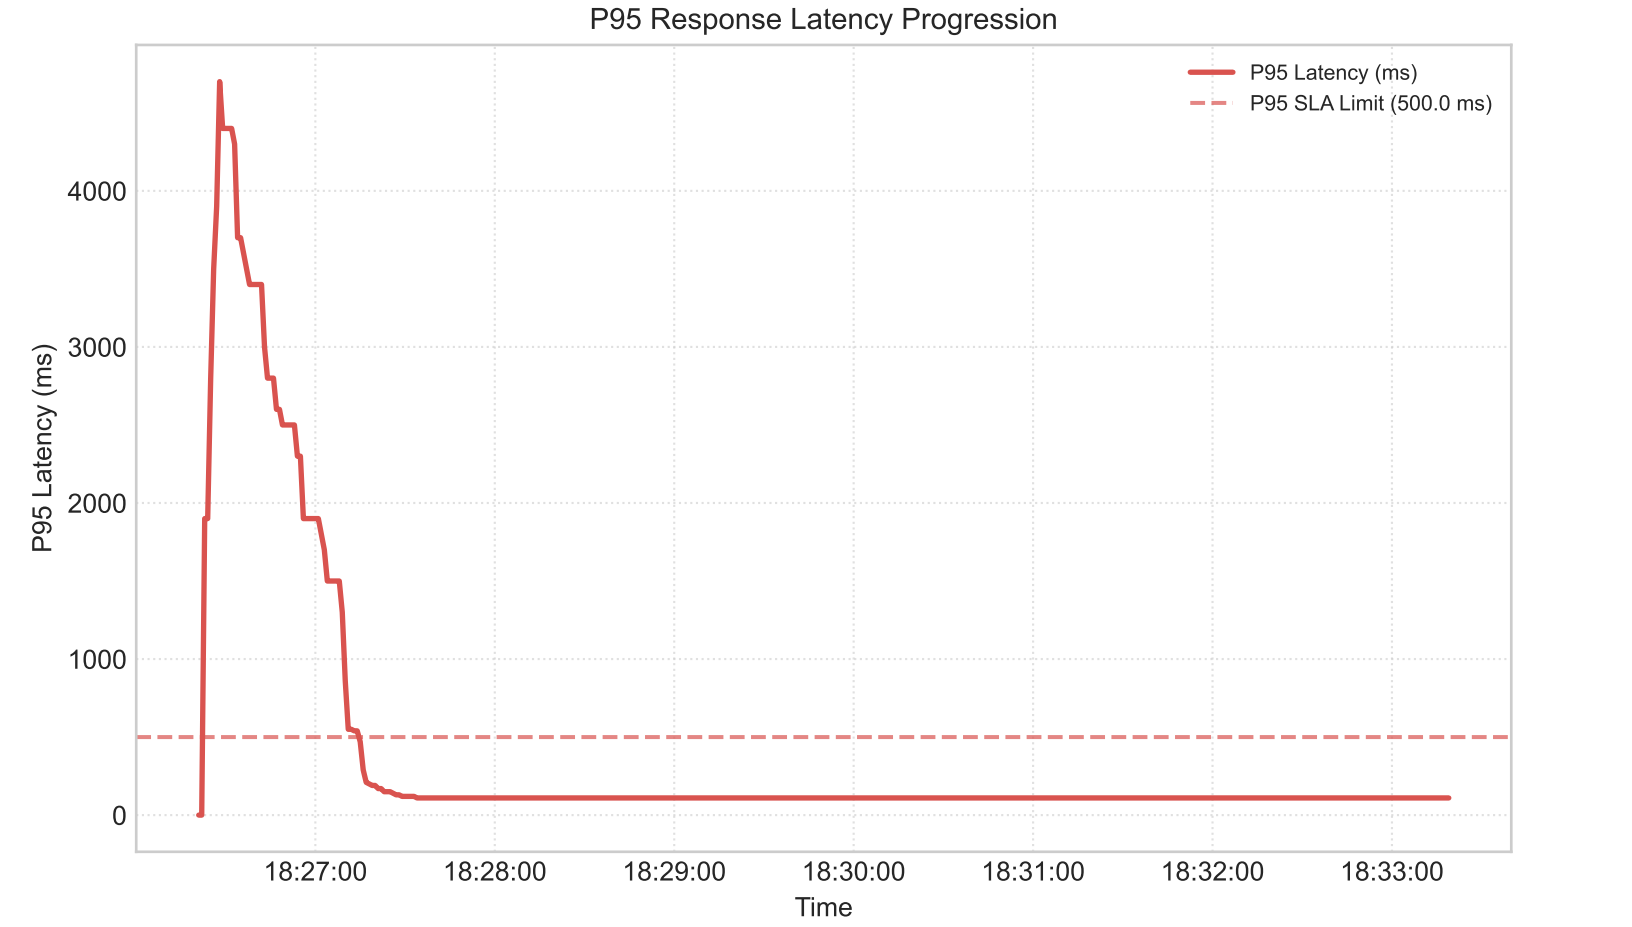

System & Hardware Resource Dynamics

Locust Workload & Latency Profile

Endpoint Breakdown & Chronological Event Timeline

1. HTTP Endpoint Performance Breakdown (Total: 6)

Endpoint	Requests	Failures	Avg Latency	P95 Latency	RPS
GET /api/data	2621	0	75.61 ms	120.0 ms	6.24
GET /health	3483	2	13.64 ms	31.0 ms	8.29
POST /login	100	80	1106.68 ms	4400.0 ms	0.24
POST /logout	19	0	29.79 ms	190.0 ms	0.05
GET /me	1664	1	21.51 ms	33.0 ms	3.96
POST /profile/update	388	0	91.15 ms	110.0 ms	0.92

2. Chronological Event Timeline (Total: 6)

Time	Event Source & Type	Category	Severity	Description
18:26:21	[RUNNER] EXPERIMENT_START	OBSERVED	INFO	Experiment started at T1 (1787489781.0)
18:26:21	[LOCUST] LOAD_STARTED	OBSERVED	INFO	Workload generation began with 0 users
18:26:40	[LOCUST] LOCUST_PEAK_USERS	OBSERVED	INFO	Locust concurrency reached peak of 100 active users
18:26:45	[LOCUST] LOCUST_PEAK_RPS	OBSERVED	INFO	Locust throughput reached peak of 26.3 req/s
18:33:19	[SLA_ENGINE] SLA_BREACH_DETECTED	INFERRED	CRITICAL	SLA Target Breached: Error Rate was 1.003 % (Limit: 1.0 %) (exact timestamp unavailable; mapped to boundary T2)
18:33:19	[RUNNER] EXPERIMENT_END	OBSERVED	INFO	Experiment completed at T2 (1787490199.0)
